Continuation of 2: NOTE: Amendments to claims 25 and 26. The presentation of newly added claims 27 and 28.

Continuation of 7: It was an inadvertently clerical error from the Examiner for not including claims 25 and 26 in the previous Office action; however, these claims have been repeatedly addressed in the previous Office actions (e.g. papers no. 14 and 21) and the scope of these claims are very similar to the scope of claims 1, 2 and 12. Therefore, it would have been obvious to the Applicant that claims 25 and 26 have been considered. Accordingly, these claims are rejected along with claims 1, 2, and 12.

Newly submitted claims 27 and 28 would be rejected because they contain new issues and subject matter, e.g. "the transparent pixel electrode... connected to at least one electrode included in at least one of said plurality of switching elements," which are not supported by the original disclosure as filed. Also they appear to be duplicated of claims 13 and 14.
